PROFESSIONAL SUMMARY

Software engineer experienced in backend development, distributed systems, and scalable API design. Skilled in building high-performance applications and automation workflows using modern cloud infrastructure. Strong interest in system architecture, performance optimization, and AI-powered systems, with the ability to quickly adapt to new technologies and solve complex engineering problems.

SKILLS

- Languages:** Python, Java, JavaScript, C++, Rust, Go, Scala
- Frontend:** React, Vue, HTML, CSS
- Backend:** Node.js, Express, FastAPI
- Cloud/DevOps:** Docker, Kubernetes, AWS, GitHub Actions, CI/CD
- Database:** SQL, NoSQL, Redis, Database Design
- Testing:** Selenium, Jest, Pytest, JUnit, Postman
- Messaging Protocols:** RESTful APIs, WebSocket, gRPC, RabbitMQ, Kafka
- System Design & Architecture:** OOP, Distributed Systems, Software Architecture, Microservices, SOA
- Development Practices:** Agile Development, Git, GitHub, GitLab, Linux

PROFESSIONAL EXPERIENCE

Bedrock Analytics Company Limited
Software Engineer (Intern)

Apr 2024 - June 2024

- Developed and deployed an automated Streamlit dashboard that replaced manual Jira reporting through API-driven pipelines and improved internal workflow efficiency.

Agoda
Backend Developer (Intern)

May 2025 – Dec 2025

- Developed microservices that monitor and process millions of booking status updates in a high-scale distributed system.
- Implemented logic to synchronize booking changes across internal services and triggered user notifications.
- Collaborated within an agile product team to deliver reliable, production-ready features.

Family Business Independent Project
AI Engineer (Part-time)

March 2026 – Present

- Developed a distributed local AI platform, reducing inference costs to near-zero by replacing external LLM APIs with on-premise llama.cpp infrastructure across heterogeneous hardware environments.
- Built a RAG system using LangChain and ChromaDB for low-latency semantic retrieval and context-aware Q&A over privacy-sensitive company knowledge bases

EDUCATION

King Mongkut's Institute of Technology Ladkrabang
B.ENG. SOFTWARE ENGINEERING
Aug 2022 - Mar 2026

LANGUAGES

- English (Fluent)
- Thai (Fluent)
